

QUALITY AND SAFETY POLICY

We strive to **achieve unyielding customer satisfaction and to safeguard workers' health and safety.**

The continuous technological evolution and increasing globalisation of the markets require us to face increasingly demanding competitive challenges; for this reason, all corporate areas must be steadfastly involved in achieving excellence as the key to continuity and growth in terms of:

Quality - Innovation - Service - Safety

To this end, Coverplast S.a.s. undertakes to promote, develop and support a Quality Management System in accordance with the internationally recognised **UNI EN ISO 9001 STANDARD**, which enables us to:

- ✓ Achieve, maintain and continuously improve the performance and capabilities of the entire organisation;
- ✓ Involve all staff in order to promote individual responsibility when it comes to work quality;
- ✓ Train and prepare staff at all levels;
- ✓ Foster communication and information among all corporate departments and sectors;
- ✓ Optimise the performance/cost ratio;
- ✓ Operate with a view to unyielding customer satisfaction;
- ✓ Ensure compliance with legislative requirements in terms of health and safety of employees and the community;

By adopting an organisational model informed by the **UNI EN ISO 45001 STANDARD** and in full compliance with Italian **Legislative Decree 81/08**, Coverplast S.a.s. also undertakes to prevent and reduce risks to the health and safety of workers, and in particular, to:

- Prevent risks at the source, i.e., in the design phase, choice of materials, and selection of methods and technologies;
- Ensure that work environments are suitable, safe and ergonomic for performing work activities;
- Protect workers' health through continuous health monitoring and assessment;
- Prevent occupational accidents and diseases affecting workers;
- Implement effective accident prevention measures and contain harmful consequences for workers by adopting the best available and economically sustainable approaches;
- Ensure legislative compliance in the field of safety.

The Chief Executive Officer delegates his own representatives to verify compliance with and the adequacy and correct implementation of the planned activities.

Arluno, 01.10.2022

The Chief Executive Officer
